Start the tour with a visit to the DIVINE MERCY SHRINE and marvel at the 50-foot high statue overlooking MACAJALAR BAY. Here, you can drink and bring home some of what is believed to be healing water. Then, go for an exhilarating CANOPY WALK on 5 wooden hanging bridges approximately 100 feet high and sing with the birds in a forest reserve called INITAO NATIONAL PARK. ZIP DOWN to the ground and commune with nature as you trek in the forest. Enjoy the rest of the time exploring the small caves in the forest doing snake or duck crawl, picture-taking by the waterfalls, building sand castles on a white sand beach, swimming or dancing with the waves in the sea. An option is an authentic calesa ride on a busy, city street! End the tour with some shopping for local delicacies and products before going back to the hotel.
